### Appoint Peace Envoys to Peoria street, was alone when the two Break News to Asquith.

BY JOHN STEELE.

LONDON, June 3 .- Former Premier David Lloyd George won a victory over his foes in the Liberal party today. nd as a result it is predicted that the unity of the party will be restored,

meeting of the Liberal members of parliament was called secretly in the ouse of commons to determine a polcy regarding the recent split between Lloyd George and the earl of Oxford and Asquith. THE TRIBUNE understands that thirty-four members at-

Mr. Lloyd George, as chairman of the parliamentary party, made a strong speech, defending his actions during the general strike. He repudi-ated suggestions that he intended to esign, contained in Lord Oxford's leter of May 10 to Sir Godfrey Collins, hief Liberal whip, and reaffirmed his loyalty to the party

Virtually all the members took part in the discussion of the resolution aderal unity. An effort at reconciliation was moved by a Liberal back bencher which in effect was a vote of confi-

ence in Mr. Lloyd George. The resolution was debated for two hours, the weight of opinion being strongly in favor of reuniting the party. The resolution was not pressed vote, however, although it was evident it would have been carried by the party's approval of Mr. Lloyd the decision be postponed until an efort for peace had been made.

### SHALL WE HAVE REPRESENTATIVE GOVERNMENT?

In the recent appeal by Edward E. Gore, chairman of the Chicago and Cook County Citizens' Committee for Popular Representation, is heard one more urgent demand for a just government under the constitution of the state of Illinois. Mr. Gore's communication to "the business and professional men of Chicago" carries with it not only the weight of his own organization but the full indorsement of the Chicago Association of Commerce. The demand for equitable representation comes from no political group or radical clique, but from the most substantial men of this com-

### Early June Gardening

AN application of pulverized sheep manure made to the perennial garden at this time will result in better blooms in midsummer and autumn. 100 lbs., \$3.00.

HARDY Chrysanthemums should be pinched back to make them

ROSES should be sprayed twice this month with Massey dust. The formula is nine parts of dusting sulphur (15c a 1b.) from the seed store to one part of arsenate of lead (50c a 1b.). Dusters, 85c each up.

PRUNE the early flowering shrubs as soon as the blossoms have passed. Cut the oldest canes of the Forsythia close to the ground. Prun-ing shears, full polished, \$1.85 each.

SET out Asters and other annuals. It will pay to work a little to-bacco dust into the soil where the Asters are to go. Pot grown annuals are best, at 10c each; 40c in bunches

THE tops of Tulips, Narcissi and other spring bulbs can be cut off when they begin to turn yellow or

ULIP bulbs may be lifted when the tops have ripened. They should be dried before they are stored if they are to be kept until autumn before they are replanted. It is often advisable to replant them immediately, covering the ground with shallow-rooted annuals. Early orders for Dutch bulbs should be placed before June 25 to secure the early prices.

IT is well to spray Delphiniums with Bordeaux mixture, taking care to cover the under sides of the leaves. Use manure water to increase the size of the flowers. Bordeaux mixture, 35c a lb.

IT is not too early to sow seeds of I most perennials. To wait until midsummer is a mistake. We have a wide range of varieties to select

THIS is an ideal time to plant Dahlias. Separate the clumps into single tubers and place the tubers on their sides, five inches underground. Do not use any fertilizer until they have started to grow. Special collections of Cactus varieties at \$2 a dozen, our selection; decorative varieties at \$2.50 a dozen. If you will cut out our advertisement and bring it to the store we will allow you 25c on the Dahlia order.

THERE is still time to sow seeds of most annuals.

IT is safe to set out pepper and tomato plants now. Pot grown plants, 10c; per dozen in bunches, 30c. SQUASHES, cucumbers and melons Can be sown outside. Work a lit-tle well rotted manure into the hills where the seeds are to go and use at least eight seeds, with the expec-tation that the cut worms will get half the plants. Slug shot, lb, cartons,

SET out early celery, using the richest ground in the garden, 30c dozen in bunches.

START planting corn and continue every ten days for a succession. SOW beans, lettuce, radishes, kohl-rabi, and peas.

MOW the lawn once a week, allowing the clippings to remain where they fall. ### VAST FLOW OF OWNERS INVITE SMUGGLED GOODS

Ottawa, Ont., June 3.-Unfolding ale of large smuggling activities which have proceeded unhampered between Rock Island, Quebec., and Derby Line Vt., the Canadian customs inquiry today heard of warehouses, apart ments, factories and even bars stradling the international border in these twin towns through which hundreds of thousands of dollars' worth of conraband has flowed.

Government auditors today said that search of such records as remained in existence showed huge quantities of American merchandise, much of it prison made, having been shipped in the last two years to the American town and then vanishing. Eight hundred thousand dollars worth was the mount the auditors actually traced That didn't even include the truckoads and wagonloads of which the mmittee previously have been told. The scheme of the Canadian man chase American goods for delivery on the Vermont side of the border. One witness, Gilmore of the James A. ### This ends roughness

Softens and beautifies your skin

- in a new way!

OMEN are judged by the appearance of their skin. Simply by correct care, you can have the advantage of a skin that is gloriously youthful; soft, glowing, altogether

This outlines a sensible method which will quickly correct all the usual blemishes. and bring new prettiness.

One important fact

Understand this one important beauty-secret, as given by every authority on skin-care. You must rely upon good soap and water to keep akin clean. And thorough cleanliness is the first law of beauty. But skin must be kept soft, despite this

cleansing. And that is the secret you learn here: Today millions of women use a soap which softens your skin as it cleanses. A secret taught us by 60 years' research and experi-

The name of this soap is OlivilO. (Pro-nounced "Oliv-EYE-lo.") . . .

Wash with it daily. In warm water. Rinee with cold. It is not like any other soap you've used. And

you can tell this the first time you use OlivilO. For you notice that there is no tight, drawn feeling. Your skin does not shine. Because it

has actually been softened as you washed! No roughness, chapping or reddening followsdespite use of cosmetics, despite exposure. This is accomplished by OlivilO's remarkable blend of finest, imported oils—with rare, herbal balsams. It is a simple, natural way of beautifying your skin. For amazing results,

. . . try it!

For these reasons, doctors recommend OlivilO to mothers for their babies. Beauty authorities everywhere recommend it to women for lovelier skin. You'll like OlivilO for every reason: its

dainty scent, its instant foam of creamy lather, its quick rinsing. The price is but ro cents and each cake

lasts remarkably long. You couldn't buy a finer skin aid if you paid a dollar, thanks to our 60 years' experience in making fine soups. . . .

All good dealers have OlivilO for you. A test is inexpensive. If you really want lovely, youthful skintry it. Results will surprise you in a delight

### Brighten your afternoons!

### Relax this way --- at luncheon

Put an end to dreary afternoons. Eliminate the usual four o'clock fatigue that cuts into your effi-

ciency these warmer days. Ten minutes will do it. Ten minutes at noon, just taking it easy. Ten minutes spent in pleasant relaxation after luncheon over a leisurely cup or two of Japan Green

Linger over it. Feel its refreshing influence in every single nerve. You'll enjoy its fine, full-bodied flavor much better that way. And

you'll find it as restful as an extra hour's sleep.

Japan Green Tea is tea at its best the natural leaf, uncolored and unfermented, with all the flavorladen juices of the fresh leaves preserved by immediate sterilization.

Specify Japan Green Tea when you order. Packaged for the home under various well-known brand names in several grades and at several prices. Get one of the better grades; the best will cost you only a fraction of a cent a cup.

Heinz Pure Vinegars are aromatic and abounding in flavor because of the slow, careful, painstaking way in which they are made. Patience is the watchword. You cannot hurry good

vinegar along. The vinegars are mellowed and the flavor developed by aging in wood for

more than a year. There is no other way to develop such flavor. There is no other way to make such vinegar. Buy vinegar by name, and not by guess.

### Famous Dynell Water At Chicago's Great

"FOUNTAIN OF YOUTH"

### Come and Drink to Your Own Good Health

Yes, all you can drink any day—every day—free! Come out to Dynell Spring—all those who are suffering from Constipation, Gall Stones, Rheumatism, Diabetes, Stomach Trouble, Kidney Trouble, Neuritis, Arthritis, Gastritis, High Blood Pressure, etc.—and give this water a trial. See for yourself that in Dynell Spring the world has been given an alkaline, saline liquid-a pure, tasteless, odorless, laxative water, which has demonstrated its ability to remedy ills in many thousands of cases. Costs you nothing to try this water and to know that our claims are true. If you are not a sufferer from any of these ills, come out anyhow. Read the hundreds of grateful letters of those who have suffered from the above diseases. No better proof of the wonderful curative powers of Dynell Spring Water is possible than these testimonials.

Dynell Spring is a wonderful place to spend the day. There are ponies and swings for the children, horses for grown-ups—shady trees and easy benches under towering oaks for the older people. An ideal place to spend your idle hours. All kinds of refreshments at moderate prices from ice cream cones to a sumptuous chicken dinner—the best in Cook County-for only \$1.25. And besides these attractions, there is the famous Dynell Water-all of you can drink absolutely free with no obligation to buy.

Dynell Water flows from a wonderful hidden spring, 300 feet below the earth's surface. It bubbles up through 80 feet of solid bedrock, as-

suring absolute freedom from contamination. A wonderful refreshing water and in addition, Nature's own healing potion, blended by Mother Earth herself, untouched or altered in any manner by the hand of man.

If Dynell Spring was a thousand miles from Chicago, you would travel this distance gladly, you who are ill, to benefit from it. Why not do so, now that it is within easy reach of everyone? Scores of people visit the Spring every day and there are many thousands on Saturday and Sun-day. Make the trip tomorrow or the next day. You will find at Dynell Spring a most enjoyable spot with every convenience and all of this won-derful water you can drink free of charge.

### Exclusive Dynell Water Chain Stores:

In addition to a great number of drug stores throughout Chicago and vicinity who sell Dynell Water, there are a number of exclusive Dynell Agencies. Most likely there is one in your neighborhood, established for the sole purpose of supplying the demands of your immediate community for this wonderful water. If inconvenient to make the trip to the Spring, refer to the list below, and communicate direct with them.

This Wonderful Water Costs So Little

A 5-gallon bottle of Dynell Spring Water delivered anywhere in Chicago costs \$3.50. There is, however, a rebate upon the return of the bottle of \$1.00, making the net cost for five gallons only \$2.50. Thousands of Chicago folks buy 50-gallon coupon books for only \$10. At this rate, five gallons cost but \$1.00 (or 20c per gallon) at the Spring or at any of our agencies. This really means only 50c a week for six glasses a day. We deliver on these coupon books for an additional charge of only 50c for each 5-gallon bottle.

Fresh from the Spring Daily

Dynell Spring is owned by us with more than one hundred acres of surrounding land. Dynell Water is fresh from the Spring daily and served on Chicago tables within a few hours from the time it actually leaves the Spring. It is the only spring water delivered in Chicago the same day it leaves the spring.

Coupon bonds of \$1,000 and \$500 each with privilege of registration as to principal. Principal and semi-annual interest payable in Canadian funds at The Royal Bank of Canada, Montreal and Toronto, or at the option of the holder, in United States funds at the First National Bank, Chicago, and at The Farmers Loan & Trust Company, New York.

The Company agrees to refund upon proper application the Massachusetts income tax not in excess of 6%, the Connecticut and Pennsylvania 4 mills' taxes, the Maryland 4½ mills' tax and the Kentucky 5 mills tax. MONTREAL TRUST COMPANY, MONTREAL, TRUSTEE Interest payable without deduction for Canadian taxes and for United States Federal Income Tax not in excess of 2%. The following summary is based upon a letter of Mr. W. N. Hurlbut, President of Fort William Paper Co., Limited.

HISTORY: The Company has had a steady and consistent growth since its incorporation in 1920, in which year it acquired its mill site and certain power rights and timber limits. A groundwood mill of 120 tons daily capacity was completed in 1921, and a newsprint mill of 80 tons daily capacity in 1922, to which an additional 80 tons daily capacity was added in the following year. In 1924 the groundwood mill-was enlarged to 160 tons daily capacity. At the present time a sulphite mill of 75 tons daily capacity is under construction and the output of the paper mill is being increased to 175 tons. SECURITY: These bonds will be secured by first mortgage upon all the property now owned or that

may hereafter be acquired by the Fort William Paper Co., Limited, including 200 acres of land owned in fee simple, with full riparian rights on the harbor of Fort William, Ontario, a groundwood pulp mill of 160 tons daily capacity, and a newsprint paper mill of 160 tons daily capacity, and by a floating charge as to all other assets. A sulphite mill of 75 tons daily capacity is to be erected with part of the proceeds of this financing. Agreements covering the Company's timber and power rights, and its rights under a certain contract with the City of Fort William will be assigned to and deposited with the Trustee for the benefit of the As additional security \$1,000,000 Twenty-Year 6% Sinking Fund Collateral Trust Notes of Fort

William Power Co., Limited, secured by pledge of all of the Common Stock of Kaministiquia Power Co., Limited, will also be assigned to and deposited with the Trustee.

ASSETS: The net tangible assets as shown by the Balance Sheet of the Company at March 31, 1926, as certified by Peat, Marwick, Mitchell & Co., Chicago, and P. S. Ross & Sons, Toronto, Accountants, after giving effect to appraisals, present financing, and construction of new sulphite mill, were as follows:

Timber Limits, Mill Site, and Riparian Rights, as appraised . . . Pulp and Paper Mill Plant, sound depreciated value as appraised.

Pulp and Paper Mill Plant, sound depreciated value as appraised, Woods Equipment, and Funds appropriated for Construction of new Sulphite Mill.

Fort William Power Co., Limited, 6% Collateral Trust Notes (pledged as collateral to First Mortgage Bonds of Fort William Paper Co., Limited).

Working Capital Working Capital 

EARNINGS: Net earnings available for interest, after deducting all operating charges, maintenance, and repairs, but before depreciation, depletion, and Dominion taxes, as certified by Peat, Marwick, Mitchell & Co., Chicago, and P. S. Ross & Sons, Toronto, Accountants, have been as follows:

 Year ended June 30, 1924
 \$ 655,697.88

 Year ended June 30, 1925
 735,492.47

 Bix Months ended December 31, 1925
 349,838.69

 Three Months ended March 31, 1926 .....\$ 710,868.46

As shown above, the average annual earnings available for interest were \$710,868.46, or over 3.3 times the maximum annual interest charges of \$210,000 on these bonds. Net earnings similarly stated for the fiscal year ended June 30, 1926, based on actual earnings for the nine months to March 31, 1926, are estimated to be not less than \$750,000, or over 3.5 times these interest charges.

These earnings, which show a gratifying increase each year, reflect no benefit from this financing, and it is estimated that when the sulphite mill is completed and the plant is running at the increased capacity of 175 tons of newsprint per day, net earnings based on the present price of newsprint, including interest received from the \$1,000,000 6% Collateral Notes of the Fort William Power Co., Limited, will be over

SINKING FUND: The trust deed will provide for annual sinking fund payments commencing February 1, 1928, which it is estimated should be sufficient to retire 62% of this issue prior to maturity, the minimum annual payment being \$80,000.

OWNERSHIP AND MANAGEMENT: All of the Company's Common stock is owned by Fort William Power Co., Limited, the stock of which is owned by The Spanish River Pulp & Paper Mills, Ltd., the Mead Investment Company, of Dayton, Ohio, The Industrial Investment Company, of Montreal, and Sir Herbert Holt, of Montreal, and associates.

Ohio River Edison Company First Mortgage Sinking Fund Gold Bonds

\$4,000,000

5% Series of 1926

Dated June 1, 1926

Due June 1, 1951 The Company will agree to pay interest without deduction for the normal Federal Income Tax up to but not exceeding 2% per annum. Company will also agree to reimburse, upon application within sixty days after payment, bondholders resident in Pennsylvania for the rour Mills Tax assessed in that state, and to refund the State Tax in Connecticut up to four mills annually, and the Massachusetts Income Tax not exceeding 6% per annum on income derived from the Bonds.

Guaranteed unconditionally as to Principal, Interest, and Sinking Fund Payments by endorsement on

each bond by Penn-Ohio Edison Company.

For further particulars we refer to a letter of C. S. MacCalla, Esq., President of Ohio River Edison

Company, which he summarizes as follows: Ohio River Edison Company owns a modern steam electric power plant on the Ohio River near Toronto, Ohio, with a present installed capacity of 88,000 H. P. which is now being increased to 132,000 H. P. The int is connected with the transmission lines of The Pennsylvania-Ohio Power & I. [ht Company, near Boardman, Ohio, by a 132,000 volt steel tower transmission line of approximately 39 miles, owned by a subsidiary of

Ohio River Edison Company. The plant, together with transmission line and substations, has been leased to The Pennsylvania-Ohio Power & Light Company for a term of 999 years. The net and unconditional annual rental will be over 21/2 times the annual interest charges on the \$11,000,000 First Mortgage Sinking Fund Gold Bonds of the

The Pennsylvania-Ohio Power & Light Company, which has leased and operates this plant, transmission line and substations, owns an extensive system supplying electric light and power within a territory of 600 square miles in western Pennsylvania and

The Pennsylvania-Ohio Power & Light Company, for the year ended March 31, 1926, reports net earnings, after all operating expenses, taxes and maintenance of \$3,916,960 available for Rentals.

The proceeds from the sale of these Bonds, together with those from the sale of \$1,600,-000 Preferred Stock and 80,000 shares of no par value Common Stock, both already underwritten, will provide funds for extensive additions to the company's plant, including the installation of an additional 44,000 H. P. of generating capacity.

These Bonds are secured, in opinion of counsel, by a direct first mortgage on all of the fixed property of Ohio River Edison Company, now owned or hereafter acquired, and by first lien, through pledge of all outstanding securities, on the transmission line owned by the Company's subsidiary, The Ohio River Transmission Company.

The Bonds of this Series will have the benefit of an annual cumulative sinking fund of \$50,000 beginning September 1, 1926. It is estimated that approximately one-half of the Bonds of this Series will have been retired by maturity through the operation of this Sinking Fund.

These Bonds are offered when, as and if issued and received by us and subject to approval of proceedings by counsel at 931/2 and accrued interest, to yield about 5.50%

Winnipeg, the capital of Manitoba is the third largest city in Canada, and the leading commercial, financial, distributing and railroad center of the Middle West of Canada. The City is located sixty miles north of the international boundary and lies 301 miles northwest of Duluth. It is now said to be the largest grain market in the world. Ample transportation facilities are furnished by the Canadian Pacific and Canadian National Railway systems. The wholesale turnover in Winnipeg is estimated to be in excess of \$250,000,000 annually. Its factories number 1,200 with a gross output of over \$125,000,000 of manufactured products each year.

There is an Additional Sinking Fund of \$10,993,905.83 for Public Utility Bonds, and Other Special Debt.

These Bonds, issued to provide funds for hydro-electric, local improvement, steam heating and waterworks purposes, are direct obligations of the City of Winnipeg. A specific tax has been levied on all the taxable property in the City of Winnipeg sufficient to provide for the payment of interest and principal at maturity. For several years the various public utilities of the City have produced an

annual surplus of revenues over expenditures after paying all operating and fixed charges. The Sinking Funds of the City of Winnipeg are administered by a permanent Commission which has on hand an amount equal to \$289.75 against each \$1,000 of the City's gross debt.

THE UNION TRUST COMPANY, CLEVELAND, TRUSTEE To be presently issued \$1,500,000

Principal and semi-annual interest (Dec. 1st and June 1st,) payable at the main office of The Union Trust Company, Cleveland, Ohio. Interest payable without deduction for Federal income tax not to exceed 2%. The Pennsylvania four mills tax is to be refunded to resident holders upon timely application as provided in the mortgage. Coupon bonds in denominations of \$1,000, \$500, and \$100, with provision for registration as to principal. Redeemable in whole or in part in inverse order of maturity at the option of the Company on any interest date at 104% and interest for the first year, less \%% each year thereafter until the redemption price reaches Authorized \$4,500,000 102% and thereafter at 102% upon 30 days' notice.

Mr. Joseph Laronge, Vice President of Loew's Ohio Theatres, Inc., has furnished us with the following information:

SECURITY

The \$1,500,000 Series "A" Bonds, to be immediately issued, will be secured, in the opinion of counsel. by first mortgage lien on the leasehold estates of the Company in five theatre and business properties, all located in Cleveland, and appraised by Dean C. Mathews at \$2,159,044. Out of the proceeds of this issue cash in the amount of \$500,000 will be deposited with the Trustee and will be used for the construction of a new theatre building at Detroit Avenue and West 117th Street, resulting in a total value for the properties pledged under this mortgage of \$2,659,044.

Against the above valuation the present offering of Series "A" bonds constitutes a loan of 56.4%. The bonds will also be secured by mortgage lien on the leasehold estates created by leases with The Euclid-East Seventeenth Company and with The Stillman Investment Company, which leases have been assigned to Loew's Ohio Theatres, Inc., subject to bond issues aggregating \$1,735,000, for the retirement of which, bonds of this issue are reserved. The indicated equity in the latter named properties, based on appraisals made in connection with the bond issues, is \$1,821,000. The theatre equipment, valued by the Company before depreciation at \$1,267,314, is pledged under the mortgage but is not included in the above appraisal. BUSINESS

Loew's Ohio Theatres, Inc., a Delaware corporation, is the leading factor in motion picture exhibition in the State of Ohio. The total paid admissions for the period from August 25, 1923, to March 13, 1926, were approximately 21,500,000, at an average admission price of 31.38c, representing total receipts of \$6,748,618.67. The Company controls, thru long term leases, the Mall, Cameo, Stillman, Ohio, State, Metropolitan, Park and Detroit Avenue, West 117th Street Theatres, all located in Cleveland.

EARNINGS Messrs. Ernst & Ernst have completed an audit of the Company's records for the period from August 25, 1923, to March 13, 1926. Based on this audit and after giving effect to the exclusion of war tax not now applicable, adjustments incident to the application of this issue, and after all expense of operation including interest on all Bonds of subsidiary companies, net income has been as follows:

Fiscal Year Ended Fiscal Year Ended Current Fiscal Year Aug. 22, 1924 Aug. 29, 1925 to March 13, '26 Net income available for interest on this issue, depreciation and Federal Tax.....\$435,723.68 \$402,580.93 Depreciation ..... 221,617.20 222,726.79

Maximum interest requirements for this issue....\$ 90,000.00 The average annual net income available for interest on this issue for the above period, is approximately \$268,000, or at the rate of 2.8 times the maximum requirements. For the 61/2 months of the current fiscal year, the applicable income is at the rates of 5.08 times the required interest amount.

The period ending March 13, 1926, includes the winter months in which the receipts are greater than during the summer months. Based on previous years' experience this period represents about 60% of the Company's annual business. The statement does not give effect to possible earnings from the Cameo property, or from the new theatre to be built at Detroit Avenue and West 117th Street or other benefits expected to result from use of additional capital obtained through this financing.

The item of depreciation includes an average amount of \$92,924 per year on theatre equipment which is not valued in the above appraisals. The Company's income from rentals of stores, offices, and commercial space other than theatres is at

the rate of \$137,650 per annum. The tenants include The Marshall Drug Company at 1515 Euclid Ave., J. C. Lowe Umbrella Co., at 1115 Euclid Ave., A. G. Spalding Bros. Co., at 1117 Euclid Ave., The Business Women's Club in the Stillman Building, The Edward M. Meyer Co., at 701 Euclid Ave., and others. The Ohio Theatre which is not operated by the Company is leased at \$60,000 per year. RESTRICTIONS

The unissued portion of the \$4,500,000 authorized issue, by suitable provisions in the mortgage, will be reserved for the refunding of The Stillman Investment Company First Mortgage Leasehold 61/2% Bonds and The Euclid-East Seventeenth Company First Mortgage Leasehold 61/2% Bonds, when and as these bonds mature, or sooner, at the option of the Company; for bonds in par amount equal to an additional 20% of such bonds retired provided appraisals are satisfactory to the Trustee at any time after one year, not to exceed \$250,000 for additional working capital and/or other proper corporate purposes, provided the total amount of bonds outstanding shall not exceed 60% of the appraised value of property upon which the mortgage is a first lien; and for the acquisition or construction of new properties and/or the exercise of purchase options contained in the mortgage leases not to exceed 60% of the cost or fair value whichever is less.

All legal details in connection with the issuance of these bonds have been under the supervision of Messrs. Tolles, Hogsett, Ginn & Morley for the bankers, and Messrs. Mooney, Hahn, Loeser & Keough for the Company. We offer these bonds when, as, and if issued, and subject to approval by our counsel. PRICES: TO YIELD 5.47% TO 6.25% ACCORDING TO MATURITY.

### An American Industry Natural Gas

THE discovery and develop-ment of natural gas is distinctively an American acheivement. The first well was drilled in 1821-today there are over 41,000 wells in the United States.

In 1924 this country used over one trillion cubic feet of natural gas, over two and one-half times the total of manufactured gas used in the same period. The value of the natural gas used exceeded \$253,830,000.

A few years ago, one part of air was mixed with nine parts of natural gas. The modern method is to mix nine parts of air with one part of natural gas. This not only conserves the gas supply but also increases the heat efficiency of the gas. Due to scientific methods, of which the foregoing is a typical example, the Utility Corporations engaged in the distribution of natural gas have been placed on a practical, efficient and stable basis.

The bonds of these Public Utility Corporations are attracting the favorable attention of the wellinformed, conservative investors.

We are offering two very attractive issues of First Mortgage Bonds of Corporations engaged in this field. Details sent on request.

As officially reported for the year ended April 30, 1926, gross earnings were \$5,359,625; net earnings were \$2,338,258, or over three times the annual interest (\$735,280) on the funded debt, including this issue.

The First and Refunding Mortgage Gold Bonds, of which \$8,188,000 are outstanding, are secured, in the opinion of counsel, by a first mortgage on one power plant and by a direct mortgage on all the remaining property, rights and franchises of the Company now owned or hereafter acquired, subject only to the \$5,680,000 outstanding First (closed) Mortgage 5% Gold Bonds due in 1939.

The large investment in the property back of the bonded debt is represented by \$6,292,500 of Preferred Stock (paying 7%) and \$3,032,500 of Common Stock on which dividends have been paid since 1910.

> We recommend these bonds for investment and shall be pleased to send circulars describing the issue in detail.

### If You Want a Real Tire Bargain-Go To Your United States Tire Sales and Service Dealer

THERE are dealers in Chicago and vicinity who are today offering you the greatest tire value for the money that they have ever been able to offer.

They are selling United States Usco Tires-Balloons, High Pressure Cords and Fabrics at prices that compare favorably with the prices on tires that do not even bear the maker's name or warranty.

And the Usco, as everyone knows, is a quality product. It has the strength and flexibility and consequently the long service life that can only be obtained through the use of high grade, uniform raw materials.

Rubber from the United States Rubber Company Plantations.

Cotton cord from the Company's large cotton mills specializing exclusively in cord fabrics for tires.

Patented features and exclusive manufacturing advantages developed in the Company's modern tire plants.

Your tire dealer knows tires and he knows prices and he is in the tire business.

Not just for today or tomorrow or until he gets rid of a surplus stock.

It's his life work and he knows that to deserve and hold your business he must give real value and service.

He knows and can tell you the fallacy in the arguments that are used to sell you Bargain Tires.

The matter of weight for instance so often cited as an argument in favor of cheap tires.

Weight which adds nothing to strength or service-just so many more pounds of useless or even harmful filler to lug around.

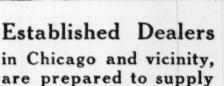

Don't discount your tire dealer. He is your best friend.

He is prepared at all times to give you service.

He knows the tire business. Visit him and get the facts before you buy.

### Inherit Fine Teeth; Others Work for 'Em

Do you think heredity has much o do with having strong, white teeth? believe it has, because my husband and all of his family have beautiful teeth. He, I know, does not take as much care of his as I do of mine, yet they are better. WIFE.

Heredity certainly does play a large part in the possession of good strong teeth. If one's ancestors for a few generations back have durable masti cating equipment the chances are strong you will have them, too. The ame hereditary ruling holds true of hair, figure proportions, and so o The slogan, "A clean tooth never

decays," is a good slogan, but it is not always true. In many well cared for and apparently clean mouths teeth ecay, in spite of local hygienic meas res. Which is understandable when u realize that chewing hard food ind supplying lime and mineral salt o the teeth through the system have a great deal to do with their preservaon and beauty.

Neglected teeth, of course, decay far more quickly than those kept scrupulously clean, even though the original trouble begins from an in ternal cause

Healthy teeth begin, as steadily accumulating experimental and clinical evidence discloses, with the health of the prospective mother and her die during pregnancy. This is as important for the teeth of the child as dill gent tooth brushing and mouth wash ing. In other words, the care of the baby's teeth begin with the care of the mother's teeth, and of herself.

The question as to why teeth decay in one mouth and remain hard and perfect throughout life in another mouth, where reasonable care is ad-ministered in the former instance, is unsolved, unless you are willing to accept the theory of diet and nutrition in relation to sound teeth

And since there are savage tribes who never heard of a toothbrus much less use one, but whose teeth are strong, white, and perfect, w have to believe that chewing on hard foodstuffs is the best cleansing um stimulating form of exercise.
